

A story of success from the Sport in Education project (summary template)

Story TITLE:
..... College/High School
Sport in Education focus area: Sports contexts in the curriculum / Building student leadership / Forging connections with primary schools or the wider community / Promoting sports culture and values / Managing a change process
What did we want to change, and why was this important?
The area or issue we were trying to build or address was...
What did we do? <i>(Include a brief description of the nature of the activity or change, and who it involved. Include images if relevant.)</i>

What happened? What evidence is there that this activity was successful?

What happened?

What evidence is there that this activity was successful?

(Include a brief summary of evidence of success. If the focus is student learning or leadership this could include a summary of: feedback from students and teachers; and data about student motivation and engagement, learning, competency development, or transfer of learning.)

Reflecting on what we learnt for the future

(What were the main learnings for you as a teacher and what will you do next? Were there things you found surprising or challenging that other schools need to hear about?)
