

## AI in Primary Schools Information Sheet for Students

---

### Tēnā koe, Greetings

We are from the New Zealand Council for Educational Research (NZCER).

We are studying how students and their teachers think about and use Artificial Intelligence (AI).

#### **He aha tō mātou nei hiahia? / What are we asking you to do?**

We would like to invite you to do an online survey. This is not a test, and there are no right or wrong answers on the survey.

***If you don't use AI, we still want to know what you think!*** You don't need to have used AI tools to take the survey.

We will use what you tell us in the survey to help us write a report about how students across Aotearoa New Zealand think about and use AI.

If you agree to do the survey, no one will know what you said unless you tell them. We won't use your name, your school's name, or your teacher's name in our report.

#### **Me aha au ināianeī? / What should I do next?**

You do not have to be part of the study. If you **don't** want to do this, please tell your teacher.

If you start the survey and decide that you don't want to keep doing it, that is okay. You can stop anytime you want.

If you have any questions, please talk to your teacher or whānau.

Kia ora, and many thanks for your help.

NZCER research team
