Year level: 8

Date: Term 1 2025

Progress over time

Latest PAT assessment

Alec's latest PAT assessment was in Term 1 2025. _____ scale score was 95.1 ± 6.4 patm units.

About PAT Pāngarau | PAT: Mathematics

[PAT Pāngarau | PAT Mathematics](#) is a test of achievement in mathematics developed by the New Zealand Council for Educational Research (NZCER). The test covers a range of mathematical content and helps teachers to plan learning programmes. The scores for each test are reported using the same scale. This means results can be tracked over time to get a sense of progress. The New Zealand Curriculum describes what students should understand, know, and be able to do in phases. Scores from PAT tests are reported against these phases.
