YOU ARE INVITED TO THIS TWO-DAY EVENT JOINTLY HOSTED BY
TE WĀNANGA O RAUKAWA AND TE WĀHANGA, NEW ZEALAND COUNCIL FOR EDUCATIONAL RESEARCH (NZCER)
This is an opportunity to deepen our appreciation of the power in our truth and to develop strategies to honour the power in our truth.

MOANA JACKSON, 2012

ABOUT THE 2015 CONFERENCE:
The Kei Tua hui series offers unparalleled opportunities to listen, meet and talk with people who understand the unique challenges and questions we face today as Māori.

This year’s contributing kaikōrero and panellists come from diverse backgrounds. They are artists, community leaders, environmentalists and academics from all over Aotearoa. No matter what their professional backgrounds are, all are committed to achieving rangatiratanga, and the reclamation, consolidation and expansion of the mātauranga continuum.

Over two days, we will discuss these diverse viewpoints in workshops and kōrero about how we can work together to contribute to Māori well-being. This hui encourages you to expand your thinking about rangatiratanga and mātauranga. It challenges you to apply this thinking to your mahi and day to day life. You’ll leave feeling challenged, stimulated and inspired.

Whether you are a community leader, educator, student, academic or, policy-maker, you will have a chance to share your ideas and develop your thinking in big ways.

Don’t miss out on being a part of this important hui.
